VICTOR HOISTING
MUCK LOADS AGAIN

ACTUAL MINING OPERATIONS RESUMED IN THE OLD WATER SHAFT

It is rather pleasing to note the hoist at the Victor shaft lifting cars of muck again, after being occupied hoisting water for it seems a very considerable fraction of eternity. The water is no longer a bugaboo. It is being kept below the station by the surface pump, while the station pump is being connected up today, apparently little or none the worse for its long submersion. It will be started either tomorrow afternoon or the following morning.

Meanwhile the two shifts, which had been employed making repairs to the shaft, are now clearing away the caved ground near the station. Within a few days new ground will be removed from the drift which will be run to tap the Extension workings.

TO FREIGHT ANTIMONY ORES FROM MINES AT BERNICE

The Fallon Standard says that W. P. Black, of Black & Solomon of San Francisco, has arranged with J. N. Telford for the transportation of antimonial ore from the Bernice district, about 90 miles east of Fallon.

The contract calls for the transportation of from 100 to 150 tons per month from the mines to Fallon. Mr. Black says that the Bernice deposits are the purest he has ever seen in a wide experience in mining, containing, as they do, 67 per cent antimony without a trace of either zinc, arsenic or iron, a rare condition.

MRS. D. BARRETT and two sons were arrivals today from Willows, Cal., where they have lived for some time.

BEFORE TONOPAH
KLONDYKE THROVE

DISCOVERY MADE SEVENTEEN YEARS AGO

SENATOR BELL STILL RETAINS HIS HOLDINGS NEAR THIS CITY

Seventeen years ago last March the surrounding country near Tonopah was placed on the map of the United States to stay for some time to come. One of the richest strikes that were made in that year occurred at Klondyke, founded by T. J. Bell and J. C. Court, two prospectors who had been searching the desert in quest of wealth for many years.

The ore for the first three years ran about \$200 a ton. From that time it gradually decreased in value and today it is as low as \$40; but with very bright prospects of increasing in the near future. The mines in that district have been run almost continuously since the discovery. After five years of operation by the owners they were leased and since that time many trappers have made considerable money. The mines are now operated by Senator Bell and Mrs. Court, her husband having died a year ago last fall. Gold, silver, lead and a small trace of copper have been found in the ores. They are producing mostly silver now, but due to the low price of the white metal, it is rather hard to keep paying expenses.

Senator Bell came to Nevada about fifty-five years ago and has remained near here ever since. He knows the country like a book and there isn't a water hole or trail that remains a mystery to him. In the early days he had a camp some sixty odd miles from Alkali Springs and since there was no other indication of water near there they had to haul their water and supplies that distance. They would just about run out of hay and supplies after returning to their camp in the hills, when they had to retrace their steps and get the necessary articles.

To make a better arrangement they conceived the idea of signaling from the top of a neighboring hill, by fire, to their trusty Indian, who remained at the springs, to bring the horses and supplies. In those days the country was overgrown with antelope and mustangs. Game was plentiful and the meat supply was an easy proposition.

NEVADA PRODUCTS FOR
DENVER EXPOSITION

It now appears that Nevada will participate in the International Soil Products exposition to be held in connection with the International Dry Farming Congress at Denver, from September 25 to October 10.

This participation will be made possible through the co-operation of the United States department of agriculture, which will finance the gathering and transportation of an exhibit from the state experiment station at Reno, and through the efforts of commercial bodies of the state.

ALLEGED RUSTLERS
ORDERED RELEASED

The supreme court handed down a decision yesterday, granting the writ of habeas corpus prayed for by James Oxley and James Mulvaney, who are charged with cattle stealing in Elko county. The court ordered that the petitioners be discharged from custody. Those men had been arrested and through the testimony of an accomplice, confined in the county jail. Judge Frank Norcross wrote the opinion, which was concurred in by the other two members—Carson Applegate.

CIVIL SERVICE EXAMINATION

An examination for the position of clerk in the postoffice will be held in this city on August 14, 1915.

Applicants must be citizens of the United States between the ages of 18 and 45 years on the date of the examination. Applicants must be physically sound and male applicants must be not less than 5 feet 4 inches in height in bare feet and weigh not less than 125 pounds without overcoat or hat.

For application blanks and further information relative to this examination address Marie M. O'Connell, local secretary Board of U. S. Civil Service Examiners, Tonopah, Nevada.

MEETING NOTICE

Business Men's Athletic club will have a meeting at 8:30 o'clock tonight at the Mizpah club rooms. All members are requested to be present.—Adv 11411.

T. J. BELL motored over to Klondyke this morning and will return some time tonight.

AUTO PART JARS
NIGHT'S REPOSE

BECOMES A SPORT AND "PLAYS THE BANK"

LOCAL SLEUTHS CLEAR UP MYSTERY THAT PERPLEXED THE CROWD

"Clankety-clank-clank! Bang! BANG! Clankety-clank-clank! Bang! CRASH!" Clankety-clank-clank! BANG! BANG!" The above outburst of engine language was uttered by an old time Thomas that was running at a moderate speed backing up Main street last evening in front of the Mizpah hotel, about 9 o'clock. The interruption in the middle of this speed demon's threats was the breaking of the plate glass window in the door of the Tonopah Banking corporation.

Five seconds later, the doors of the institution were overwhelmed with visitors. On examining the damage it was found that something with a terrific momentum had hurled itself through the glass and not wishing to stop there, it sped still farther on until it buried itself in the polished surface of the woodwork under the receiving teller's window.

Sherlock Holmes was called and on examining the inside of the office he discovered a small steel blade, one-sixteenth of an inch thick, two inches wide by four long, imbedded in the woodwork. The small engine of destruction was extracted from its new home and on holding a careful consultation, the sleuths agreed that it belonged to a motor car. The next thing was to find the car.

Two gentlemen in a dazed frame of mind, who had been sitting directly under the pierced window, collected themselves and told the detectives that a white machine backed up the street about the same time that the incident occurred. They also suggested that an investigation should be made of the machine and ascertain as to where the missing part belonged. The party captured the machine and in several minutes they were triumphant over the fact that they had found where the mystery rested. The part belonged to the fly-wheel of the old Thomas car.

The manner in which the blade succeeded in escaping from its cell in somewhat of a mystery in itself. The decision was that the steel blade worked loose and on account of the terrific number of revolutions that it was making at its departure, it hit the ground, hardly slackened speed, skidded and began soaring, which finally terminated in the office of the Banking corporation.

TUBERCULOSIS CAUSED
BY MODERN CLOTHING

NATIVES OF SOUTH SEA ISLANDS RETURN TO PRIMITIVE GARMENTS

(By Associated Press.)
LONDON, July 14.—The British attempt to civilize the natives of the Gilbert and Ellice Islands, in the Pacific ocean, by teaching them to dress in a modified European fashion, has been detrimental from a standpoint of health, and the colonial office now announces that it is doing its best to get the natives back into their former habits. The old method of rubbing the body, bare save for a kilt of leaves, with coconut oil, was the best protection against chills, and the cotton smock for women and cotton trousers and shirt for men are therefore condemned as being responsible for an increased tuberculosis rate.

BLOCK DISCHARGED

J. Block, charged with grand larceny, was discharged from the justice court at 9:30 this morning on the grounds of insufficient evidence.

Classified ads in the Bonanza will reach the homes of all in Tonopah. Try an ad to rent your rooms and/or table board.

NEW ATHLETIC CLUB'S
INITIAL CARD OFFER

MAIN BATTLE WILL BE FOUGHT BY SUDENBERG AND DEMPSEY

The first of the boxing contests to take place under the auspices of the Business Men's Athletic club will occur at the Airdome on July 19th and as the new club will make an effort to have nothing but the best, it will be seen from the introductory program that it is endeavoring to please the public.

The first event of the evening will be between Harry (Kid) Kelsey of Oakland and Slick Merrill of Tonopah. Kelsey is only known by a few here, but from his record he promises to be a drawing card. He has won thirty-two straight battles in the last eight months, and at present is in training at Oakland. He will arrive here the morning of the 15th and will make his appearance the same afternoon on the floor at the Northern, where he will finish his training to meet his dusky antagonist.

JOHNNY SUDENBERG

Slick Merrill has been in training with Johnnie Sudenberg at the Northern for about ten days and only a little more work to be in fighting trim. The battle between Sudenberg and Dempsey will naturally draw the most attention, because these two have met twice before in very hard battles and each time fought to a draw. Each man will do his best to defeat his opponent and in doing so there will be some fighting. Sudenberg and Merrill will train each afternoon at the Northern at 2 o'clock, and Kelsey will follow at 3 o'clock.

NEVADA ROADS ARE
PRONOUNCED GOOD

AUTO PARTY PLEASSED WITH TRIP ACROSS THE STATE

R. B. Middlemiss, wife and party, of Ogden, who are on their way to Globe, Ariz., strongly bring out the point of the good roads question. They say that the roads from Mount Ella to Tonopah cannot be excelled. They are in splendid condition and there is no reason on earth why the people of Nevada do not boast their highways instead of permitting a few to knock and drag their reputation down.

Middlemiss started from Ogden about two weeks ago and ever since he left, although the machine has a very heavy load, they have been making an average of twelve miles on a gallon of gasoline. They have had no punctures or blowouts since they departed on their adventurous journey. The only thing worthy of note was the breaking of all the bolts on the transmission gear twenty miles the other side of Curry. They had a steel clothesline with them, so they fastened the gear as best they could until they reached Ely, twenty-two miles farther on, where they had the necessary repairs made. Ever since they have been in good luck and nothing hindered them in their progress.

NOTICE, WOMAN'S RELIEF CORPS

All members of W. R. C. No. 122 are requested to be present at St. Patrick's Catholic church Thursday morning at 9 o'clock to attend services over Dennis O'Connell. By order of the president.

MRS. CATHERINE SCHOEN.

SHORT ILLNESS FATAL TO HORATIO W. BAKER

Horatio W. Baker, founder of the chair of mining engineering in the University of Nevada, and for the last three years manager of the advertising department of the Mining and Scientific Press and special contributor to the Western Engineer, both San Francisco publications, died at his home, 2903 Clay street, Thursday after a short illness. He is survived by his widow, Mrs. Hallie Moulton Baker.

PERSONAL

T. BRUCE MCKEE of Salt Lake City is a guest at the Mizpah.

O. K. REED is in from his ranch in the Kawich country.

MISS N. McFALL is over from Goldfield to spend the day with Tonopah friends.

MRS. G. A. SOUTHWORTH left today for Tulsa, Okla., to pay a visit to her many friends.

R. B. MIDDLEMISS, wife and party passed through here at noon from Ogden on their way to Globe, Ariz.

MRS. CARL FEUTCH and three children left this morning for Goldfield, intending to spend several days.

W. A. PARKER, wife and daughter departed this morning for San Francisco, where they will spend several weeks.

CLAUDE MANNING and wife were passengers this morning for San Francisco where they will spend the summer.

GUY GILMAN, a mill man at Manhattan, was a passenger on the auto stage from the pine tree camp yesterday afternoon. He left on No. 23 for Yerington.

MISS LAUREL DAWSON motored over this afternoon from Goldfield on her way from Los Angeles. She will visit Miss Anne Brown, sister of Fred Brown, the broker, for several weeks.

FRED STEIN is on his vacation. He departed for Los Angeles, where he will attend the Elks' convention. From there he will go to San Diego and return by way of San Francisco.

ED UREN and wife made their departure this morning for their old home at Harley, Wis. They expect to be gone about two months, visiting the eastern states and returning by way of Denver.

H. H. BACON, Dr. Musante and H. W. Skinner have returned from Brush creek, sixty miles north of Tonopah, where they spent several days fishing with excellent success. They caught 75 fish, the largest weighing a pound and three-quarters.

MRS. C. D. ASCHER, formerly Miss Agnes Piercy, and her baby arrived this morning from Honolulu to visit her sister. She has been absent two years. Her husband has recently been transferred from a station at Honolulu to one at Modena, Utah.

W. M. VEITH and F. A. Southworth motored over to Manhattan and Round Mountain yesterday morning, returning late that evening. While in the pine tree camp Mr. Southworth was presented with a handsome wild cat which will be brought in on the stage tonight.

TONIGHT THE HIKERS
START ON THEIR TRIP

FROM TONOPAH TO SAN FRANCISCO WITH A BARROW LOAD OF ORE

Tonight is the evening to see the hikers in their traveling costume. They will start immediately after the first show. A short talk will be given by one of the party on the stage at the Butler theater. John Cuddy and William Parker are the lads who will attempt to reach San Francisco by the 1st of September. The mines have given them samples and the total amount of ore will be in the neighborhood of forty pounds. In addition they will carry about thirty pounds of equipment. A large sign, "Tonopah to San Francisco. We'll get there," will appear on the side of the wheelbarrow. Through the enthusiasm of the people the boys have succeeded in collecting over \$150 to cover their expenses. On reaching San Francisco, however, they will receive a substantial recompense.

DEMAND FOR TUNGSTEN
SHOWS INCREASE

(By Associated Press.)
LONDON, July 14.—The damage done during the series of anti-German riots in London shortly after the sinking of the Lusitania amounted in all to about \$1,250,000, according to statements made in court here.

EAGLES' NOTICE

All members of Tonopah Aerie, No. 271, F. O. E., are requested to meet at St. Patrick's church Thursday morning at 9 o'clock to attend the funeral of Brother Dennis O'Connell. By order of N. M. McCormick, worthy president.—Adv 11411.

AMUSEMENTS

BUTLER THEATER

Hal Reid's emotional and stirring melodrama of war times, with Lew Dockstader in the leading role, will be the feature at the Butler this evening. One of the most emotional of war-time melodramas, full of nerve and action, and of the heartbreak of war, is "Dan," by Hal Reid. Its hero is a gray-haired darkey slave. At once servant and friend, often familiar in a way that would have been impertinent in one whose heart was not so true, he self-importantly imagines that the care and guardianship of the family, yes, and of the whole south, rests upon his stooping shoulders, and in the end he gives his life to free his young master—he is shot at sunrise by Union soldiers. The object of the picture is to give spectators a sense of the thrill of life with its tears and laughter, and gets down to real business right away. It has been photographed some place that passes perfectly for the woods and meadows of Virginia, and has a fine old Colonial dwelling, fittingly into the story of the Dabneys, owners of Dan and staunch supporters of the southern cause. The picture is sure to please all who see it.

Tomorrow, "From the Valley of the Missing," a Fox production, a \$100,000 production with 1000 players; a circus and a county fair rented especially for this production.—Adv.

MILLERS COUPLE MARRIED

Paul Rhoda, a millman employed at Millers, and Miss Jane Finkle of the same town secured a marriage license at the county clerk's office Monday morning and were married soon after by Rev. J. L. Collins at the Methodist parsonage. The young couple left the same afternoon over the L. V. & T. railroad for a honeymoon trip through California. They were driven over from Millers by Deputy Sheriff George Hickernell in the latter's machine. The others in the party who acted as witnesses were Mrs. Charles Bona and Mrs. Joseph Branden.—Goldfield Tribune.

DO YOU USE

"DUMMY"

Webster defines the word "Dummy" as follows:
"Dummy—A sham package in a shop, one that does not contain what its exterior indicates. * * * Fictitious, or shammed; feigned."

Or, in other words, Blank, Stationery, in your daily business transactions?

?

As applied to Business Stationery, the word "Dummy" carries with it all the odium applied by Mr. Webster. Associated with its use are the tombstones of countless business failures. It consists of a sheet of cheap paper in the shape of a bill head, a letter head, or, possibly an envelope, upon which is smeared the name of a town, together with a few blank lines upon which may be scrawled the name of the firm, person or corporation who is making a slipshod attempt to do business. Or the name may even be gobbled upon the sheet by a rubber stamp.

At all events, the use of such Stationery detracts from the quality of the stock carried if any attempt is being made to give honest, sterling goods.

Its use does not tend to leave a good impression in the mind of the party receiving it.

He is apt to associate you and your goods and your business in the same category to which your stationery properly belongs.

Think it over. Really there is but a short step at times between the road to Success and the broad highway that ends at the great big city of Failure.
